

Cell Phone Use Policy

The Decatur Public Library is committed to providing an environment that is comfortable but conducive to relaxation and study. Noise from the use of cell phones is disruptive to this environment. Therefore, the use of cell phones in the library is prohibited.

Patrons entering the library building with a cell phone, pager, or similar electronic device should turn the device off, or set it to a **non-audible** signal (flashing light, vibration, etc.). Those wishing to speak on a cell phone should proceed to the entrance foyer, and converse quietly. Violations of this policy can be reported to Librarian in Charge via any public service desk. Patrons who fail to comply with this policy may be asked to leave the building.
