LEAGUE OF WOMEN VOTERS OF ILLINOIS 67 East Madison St., Chicago 60603

CEntral 6-0315

November, 1965

TO:

League Budget Chairmen

FROM: Stephanie Kramer,

State Finance Chairman

League of Women Voters of Decatur Reimbursement Policy -- January, 1965

In recognition of the advantages of having as many League members as possible attend state-sponsored meetings, it is the feeling of this board that as much financial help and other encouragement as possible should be offered. The following guidelines are recommended for state-sponsored meetings other than conventions and legislative schools.

1. Representatives should be named by the board prior to the date of the meeting. In case no regular board meeting is scheduled, the president and the treasurer may name the representatives and allow the expenses, using this policy as a guide. Itemized accounts should be submitted before reimbursement.

In general, committee chairmen on the topics to be discussed are eligible for reimbursement. However, committee members as well as committee chairmen should be reimbursed for regional meetings, and the board has the discretion of allowing reimbursement for committee members attending other meetings, subject to budget considerations.

- 2. The local League will reimburse for the following expenses for all meetings covered by this policy:
 - a. Transportation.
 - 1. Drivers of cars shall receive five cents per mile and all parking fees shall be paid.
 - 2. If public transportation is used, reimbursement for expenses shall be no more than the cost of driving (including taxi, bus fares, etc.).
 - b. Any registration fees, luncheon expense, and up to \$2 for dinner en route (if necessary).
 - c. Baby-sitting allowance of not more than \$2.50 per person.
- If an overnight stay is necessary, reimbursement shall also be made for all meals, tips and hotel room in addition to the expenses listed above.
- 4. Attention is called to the fact that the state League pays all but \$3.50 of railroad coach fare or five cents per mile travel allowance to official delegates to most meetings. This amount is paid directly to the delegate but must be turned over to the local treasurer. 130
- 5. \$25 shall be the maximum allowed for any one representative, regardless of whether the state League reimburses for travel expense.
- 6. The figures on the most economical way for the greatest number of members to attend meetings in Chicago may be obtained from the Treasurer.
- 7. A committee chairman may wish to share her expense money with other committee members who attend, but she is not expected nor required to.

LEAGUE OF WOMEN VOTERS OF ILLINOIS 67 East Madison St., Chicago 60603

CEntral 6-0315

November 17, 1965

TO: League Presidents and

League Budget Chairmen

FROM: Mrs. Ferdinand Kramer

Finance Chairman, State Board

PRESIDENTS: IF THERE ARE TWO COPIES ENCLOSED, PLEASE GIVE THE EXTRA ONE

TO YOUR BUDGET CHAIRMAN.

Re: Local League Budget-Making and Pledges for State and National Services

New Tools from National

The Art of Spending Money and The Art of Spending Money Workbook, two new booklets on Local League Budget Making, have been sent you. Local League Presidents are urged to read over these materials before passing them on to the budget chairmen.

Of course the president has as much responsibility in achieving a good budget as she has with other parts of League work and undoubtedly will make early plans with the budget chairman for board discussion of the basic questions:

- 1. How satisfying is it to be a member of your League?
- 2. How important is the League to your community?

(If these words are familiar to you it is because they are words developed by the League of Women Voters of Illinois and now adopted by the National League--shall we each take a bow?)

3. What exciting plans for the future does your League have? Perhaps the word exciting is the key to a better budget -- a budget that your members will adopt with enthusiasm and will be willing to implement in expenditure of time and effort both in working on program and raising the required funds.

New budget sheets are available only in the workbook

They are no longer available as a separate sheet as presently listed in the national publications catalog.

your members

Explain to It is desirable to include members in budget discussions when possible but important to give them a clear and accurate and somewhat detailed description of what each item on your proposed budget means. Leagues are urged to print along with each item, either on the same page next to each item, or on a supplementary sheet, exactly what each amount will pay for. For example: In the Workbook, page 18 under "A - General Administration 1. Board Tools and Expenses:"

AndacA tladi .meme

The description might say "Each board member will be provided a copy of 'Handbook for Local Leagues,' copies of the 'National Board Reports,' and every three board members will share a 'National Subscription Service.' Baby sitting money for two members to attend one board meeting a month."

Under Item C .-- Delegates, Travel, and Affiliations

3. Workshops and regional meetings. The description might say "It is estimated that board members will attend one statewide meeting at the state office in Chicago once during the year, travel expenses figured on the basis of coach fare or 5¢ a mile up to \$3.50 (State League will reimburse us over the amount of \$3.50), meals enroute \$____, baby sitter if needed at home \$____. (Policy on reimbursement of board member travel expenditures adopted (give date) by the Board.) And that board members will attend a regional meeting. Baby sitting and gasoline allowance of _____ ¢ a mile is allowed." Or--you may wish to say: "Reimbursement of travel expenditure of board members will cover only 1/2 of their estimated costs."

However your budget is figured, each board member and each member needs to know how each item was estimated if she can sensibly discuss the budget and if she is expected to be willing to adopt the larger budget a growing League must have.

First year using new national budget form

The first year will be the hardest, because some of the items from last year's budget will not correspond exactly with the new list. For some of you whose previous budget was expressed only in very general terms it will seem difficult. Just be clear in your own minds what you are doing and do your best to make it clear to your members.

Need we fill in for every item?

It is suggested that you list every item and leave blank or say "none" —so that when this item is needed you will have space for it. This will also remind members of possibilities of useful League spending.

Flexibility within the budget

Don't be afraid. The budget is not a <u>straight jacket</u>. It is or should be an aid to <u>straight thinking</u>. During the year if your treasurer sees that you are not spending what was allowed for one item and you seem to be overspending in another it is all right to shift the amounts around within the total <u>budget</u>. For example, if you budget \$50 for printing voters service materials and then find that your Chamber of Commerce is willing to <u>donate</u> the printing costs, you may use the \$50 for other League purposes as your board decides.

State provides budget work sheets

State had budget worksheets made for you before we saw the new National materials. You will have to change some of the items to correspond with the new forms. You are being sent two of these and you may have more if you ask for them.

Decatur Reimbursement policy

Your budget committee may wish to propose a similar policy sheet to your board. It should eliminate many hours of board discussion during the year and also be a useful tool for the nominating committee.

-Balance the budget All League budgets are adopted as balanced budgets. That is: estimated expenditures will be the same amount as estimated income.

Income

Therefore the budget committee not only recommends how the money shall be spent and how much--but also where the money is coming from.

Dues

The budget committee should make recommendations about the dues to the board. This year National recommends \$7.50 dues. All costs have gone up; five-dollar dues are simply out of touch with today's costs.

Finance drive

If your new proposed budget makes it possible for your League to have exciting and interesting plans for next year's activities -- and provides for the full pledge according to the finance formula -- then your finance drive goal will undoubtedly be higher than this year's goal.

If your League did not pledge its fair share last year according to our Illinois Finance Formula and/or it did not make the finance goal in last year's drive, the budget committee and the board should make a careful review of how your finance drive is conducted.

for not succeeding in drive

No good reason We know of no League in Illinois, new or old, large or small, "strong" or "weak" (in its own estimation) that has failed in making its finance goal if it has followed the League way described so carefully and so well in "The Art of Raising Money" (National publication). The State ----- Board will be glad to help you analyze your problems if you have any.

And no reason for not meeting the full pledge

----- Since the Illinois Finance Formula is adjusted to: age of League, financial potential of each League community, and to the strength ${\tt of}$ each League in its own estimation, there seems to be every reason why every League should pledge the full amount of the formula -- if indeed the formula has any validity at all. The finance formula reads:

(\$4.25 + 60¢ per point) X 4 yr.average membership = pledge.

.

cles to help your members formula

Bulletin arti- A number of Leagues last year printed excellent descriptions in their bulletins of the Finance Formula and of how their Leagues figured the Finance Formula. Undoubtedly members are more willing to participate understand the in your finance drive when they fully understand all League financial pledge and the responsibilities.

> Enclosed: 2 budget worksheets Decatur reimbursement policy Finance Formula sheet, Jan. 1965

Busgel

The Illinois Finance Formula

Because of the great inequities in local League pledges a committee was appointed in June, 1962, to find a better way for local Leagues to know what their fair share for support of the Illinois and National Leagues would be.

Local Leagues are entirely responsible for raising all funds required by local, state and national for the League. For a growing vital League, it is essential that each <u>local</u> League assume its full responsibility.

The League Handbook says: (p. 46) "The local League shall assume financial responsibility towards the support of the League as a whole commensurate with its strength and the potentialities of the community." The Finance Formula was developed to fulfill this requirement.

The Illinois Finance Formula is figured in three parts: (1) a <u>base figure</u>; (2) a <u>point factor</u> depending on: (a) age of League, (b) community potential and (c) strength of League; and (3) <u>League membership figure</u>.

The present formula reads:

(\$4.25 + 60¢ per point) X 4-year average membership.

Base Figure ---

\$4.25

Point Factor -- Each League has a possible 0-7 points, determined in the following way. A League that has been in existence for five years has one point for the age factor, thus giving the new League a five-year grace period before it is expected to share equally in the finance responsibility.

For community potential, a schedule was made showing percentage of families with an income over \$10,000 a year and showing the median income. (These figures were taken from the 1960 U.S. Census.) From 0-3 points is awarded according to this chart.

For strength of League we agreed that Leagues evaluate themselves and consider "how satisfying an experience is it to be a member of your League" and "how much does it matter that there is a League in your community?" Each League makes the decision in awarding from 0 to 3 points for local League strength.

Membership Figure-- This is the four-year average membership count as of January 1.

Figuring the The total number of points is multiplied by 60¢ and is added to the Formula— base (\$4.25). This amount is then multiplied by the four-year average membership figure.

BANG . T. ELBOY

<u>abi</u> - E ,

The total possible amount of local League pledges -- if every League pledges its fair share according to this formula would be about the sum shown as "Local League Support" on the proposed state budget.

Any amount pledged less than the formula figure will, in effect, invalidate the whole concept of the finance formula -- since the formula itself includes the major variations between Leagues.

Leagues have now had four years since the adoption of the Finance Formula to catch up with the realities of League finance.

The State Board hopes and expects that this year every League will pledge according to the formula.

The State Board urges every League to have full discussion with its members of the reasons local Leagues make pledges, what state and national services consist of, how the formula shows what a fair pledge is, and how each League board evaluates its own League strength.

- researcher. (: 1 . Local League Pledge Formula Sheets with your age, community potential, and four year average membership figures will be sent as soon as your January 1, 1966, membership figures have been received by the State Office. The State Office needs to know the amount of your proposed pledge no later than March 1.

RE:

Travel Equalization Plan, 1966 Convention

The Travel Equalization Plan for the 1966 national Convention to be held in Denver, Colorado, May 2 - 6, has been figured on the same basis as that used for the 1964 Convention. The Plan is to equalize as nearly as possible the fares paid by delegates and observers (representatives of provisional Leagues) attending the Convention. It is our hope that transportation by air, coach where possible, will cost no delegate or observer more than \$160, plus tax. In order to equalize the fares, the Leagues have been divided into thirteen zones, as follows:

- ZONE 1: Colorado, Kansas, Nebraska, New Mexico, Utah, and Wyoming.

 The range of air coach fares, excluding tax, is \$22 \$63. Each delegate and observer will pay \$35 into the Fund and will receive no reimbursement.
- ZONE 2: Arizona, Arkansas, California, Idaho, Illinois, Iowa, Minnesota, Missouri, Montana, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, and Wisconsin.

 The range of air coach fares, excluding tax, is \$67 \$126. Each delegate and observer will pay \$30 into the Fund and will receive no reimbursement.
- ZONE 3: Indiana, Kentucky, Michigan, Ohio, and Washington.
 The range of air coach fares, excluding tax, is \$136 \$140.
 Each delegate and observer will pay \$20 into the Fund and will receive no reimbursement.
- ZONE 4: Alabama, Louisiana, and Tennessee.

 The range of air coach fares, excluding tax, is \$142 \$156.

 Delegates and observers from these states neither pay into nor receive a refund from the Equalization Fund.
- ZONE 5: District of Columbia, Maryland, and Mississippi.

 The air coach fare, excluding tax, is \$178. Each delegate and observer will receive a refund of approximately \$20.
- ZONE 6: Georgia, New Jersey, New York, Pennsylvania, and West Virginia.

 The range of air coach fares, excluding tax, is \$184 \$190. Each delegate and observer will receive a refund of approximately \$30.
- ZONE 7: Connecticut, North Carolina, and Virginia.

 The range of air coach fares, excluding tax, is \$196 \$199. Each delegate and observer will receive a refund of approximately \$40.

- ZONE 8: Delaware and Massachusetts.

 The range of air coach fares, excluding tax, is \$204 \$205. Each delegate and observer will receive a refund of approximately \$45.
- ZONE 9: New Hampshire, Rhode Island, and South Carolina.

 The range of air coach fares, excluding tax, is \$217 \$219. Each delegate and observer will receive a refund of approximately \$60.
- ZONE 10: Florida, Maine, and Vermont.

 The range of air coach fares, excluding tax, is \$236 \$240. Each delegate and observer will receive a refund of approximately \$80.
- ZONE 11: Includes only Puerto Rico, where air coach fare is \$310, excluding tax. The refund would be approximately \$150.
- ZONE 12: Includes only Alaska, where air coach fare is \$340, excluding tax. The refund would be approximately \$180.
- ZONE 13: Includes only Hawaii, where air coach fare is \$344, excluding tax. The refund would be approximately \$184.

It will be noted that the zones are set up according to fares and not geographically. In order to arrive at these figures, we selected a transportation center in each state. An airline agent figured the fares from those centers to Denver. These figures, plus our best estimate of attendance, furnished the basis for our calculations. The exact amount of refunds cannot be decided until the actual delegate body has been determined.

Attached to each Credential which we will send you in early March will be an Application for Travel Refund. These applications are to be filled in and presented in Denver at the time of registration by every delegate and observer who believes herself qualified to receive a refund. Only applications received at the time of registration will be considered for refunds.

The refunds to the delegates and observers who benefit from the Travel Equalization Fund will not be paid at the Convention in Denver. They will be handled at the national office soon after the Convention period, and the refund checks will be mailed from here.

Visitors do not share in the Travel Equalization Fund.
