

ROBERT H. DUMAS, City Librarian 457 NORTH MAIN STREET DECATUR, ILLINOIS 62523

BOARD OF DIRECTORS MEETING

AGENDA

APRIL 21, 1967

- I. CALL TO ORDER
W. A. SAPPINGTON, PRESIDENT
- II. APPROVAL OF MINUTES:
 - A. REGULAR BOARD MEETING MARCH 17, 1967
- III. COMMUNICATIONS
 - A. ILLINOIS STATE LIBRARY
- IV. CITY LIBRARIAN'S REPORT
- V. STATISTICAL REPORT
- VI. REPORTS OF COMMITTEES:
 - A. PROPERTIES AND FINANCE
 - B. POLICIES, PUBLIC RELATIONS AND PERSONNEL
- VII. OLD BUSINESS
 - A. APPOINTMENT OF BUILDING COMMITTEE
- VIII. NEW BUSINESS
- IX. ADJOURNMENT

MEMBERS EXPECTED TO BE PRESENT:

MR. GROHNE
MR. MILLER
MR. OLSEN
MRS. RUSSELL
MR. SAPPINGTON
MR. SCHUERMAN
MR. TEBUSSEK
MR. WEST

DECATUR PUBLIC LIBRARY
DECATUR, ILLINOIS

MINUTES OF BOARD OF DIRECTORS MEETING - APRIL 21, 1967

THE REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE DECATUR PUBLIC LIBRARY WAS HELD ON APRIL 21, 1967 IN THE BOARD ROOM OF THE MAIN LIBRARY.

MEMBERS PRESENT:

MR. GROHNE
MR. MILLER
MR. OLSEN
MRS. RUSSELL
MR. SAPPINGTON
MR. SCHUERMAN
MR. TEBUSSEK
MR. WEST

MEMBERS ABSENT:

NONE

OTHERS PRESENT:

GARY WISBY
(DECATUR HERALD)
MR. DUMAS
MISS SCHWEGMAN

THE MEETING WAS CALLED TO ORDER AT 4:35 P.M. BY MR. SAPPINGTON.

THE MINUTES OF THE REGULAR BOARD MEETING OF MARCH 17, 1967 WERE APPROVED.

MR. SAPPINGTON REVIEWED A REPORT FROM THE ILLINOIS STATE LIBRARY CONCERNING TITLE II FEDERAL CONSTRUCTION FUNDS WHICH HAVE BEEN DISTRIBUTED TO VARIOUS COMMUNITIES THROUGHOUT THE STATE, WITH THE COMMUNITIES PAYING 75% OF THE COSTS AND THE FEDERAL GOVERNMENT 25% UP TO A LIMIT OF \$400,000. THE ILLINOIS STATE LIBRARY REPORT FURTHER ANNOUNCED A LIBRARY BUILDINGS WORKSHOP TO BE HELD MAY 25-26, 1967 AT ROSEMONT, ILLINOIS. MR. SAPPINGTON STATED THAT PROBABLY THE CITY LIBRARIAN AND ONE BOARD MEMBER SHOULD ATTEND AND THAT HE WOULD LIKE AN EXPRESSION OF THE BOARD BEFORE THE MEETING ADJOURNED AS TO WHETHER OR NOT THE BOARD WILL AUTHORIZE REPRESENTATION.

CITY LIBRARIAN ROBERT DUMAS PRESENTED TO THE BOARD HIS REPORT PREPARED FOR THE DEPARTMENT OF COMMUNITY DEVELOPMENT WHICH OUTLINED HIS FEELINGS AS TO THE FOUR BUILDING SITES PROPOSED BY THE CITY PLANNING COMMISSION. MR. DUMAS GAVE AS HIS PREFERENCE THE AREA BETWEEN SOUTH MAIN AND WATER STREET, FRONTING ON EAST MAIN. IT WAS POINTED OUT, HOWEVER, THAT THE LOCATION OF THE PRESENT LIBRARY IS STILL CONSIDERED FAVORABLY AS A POSSIBLE BUILDING SITE.

MR. OLSEN, CHAIRMAN OF THE PROPERTIES AND FINANCE COMMITTEE, PRESENTED A SUMMARY OF RECOMMENDATIONS ON THE FOUR LIBRARY SITES PROPOSED BY THE DEPARTMENT OF COMMUNITY PLANNING AS FOLLOWS:

ALTERNATIVE NO. 1

The area bounded by Franklin, North Broadway and Main, while convenient to is not within the principal axis of pedestrian traffic and hence offers no advantage over the present site although the cost of site would be considerably increased. The presence of one store, even a large one, in the immediate area is insufficient basis to gamble a long-term interest of the public library.

ALTERNATIVE NO. 3

The area bounded by Dorenda, Cleveland, Garrison and Webster is too remote from the center business district, an observation which applies equally to

ALTERNATIVE NO. 4

on South Side Drive east of Station WAND-TV.

Furthermore site Alternatives 1, 3 and 4 are based upon the assumption of a centralized grouping of all cultural facilities which would be detrimental to the public library insofar as it would create periodic and frequent automobile traffic and parking congestion, and insofar as it would tend to eliminate within the area general modes of commercial activity.

ALTERNATIVE NO. 2, LOCATION B

The area between South Main and Water fronting on East Main meets the necessary criteria for adequate public library location and is acceptable.

MR. OLSEN MOVED THAT THE ABOVE SUMMARY BE APPROVED AND THAT THE SUMMARY ALONG WITH A COPY OF MR. DUMAS' REPORT BE FORWARDED TO THE DEPARTMENT OF COMMUNITY PLANNING. THE MOTION WAS UNANIMOUSLY APPROVED BY THE BOARD.

MR. OLSEN RECOMMENDED AND MOVED THAT THE ACCOUNTING FIRM OF MURPHEY, JENNE AND JONES DO THE AUDITING FOR THE LIBRARY FOR THE FISCAL YEAR 1966/1967. THE MOTION CARRIED.

MR. OLSEN AS CHAIRMAN OF THE PROPERTIES AND FINANCE COMMITTEE FURTHER MOVED THAT A TRANSFER OF FUNDS FROM ACCOUNT 940.101, REGULAR SALARIES, BE MADE AS FOLLOWS:

\$120.00 TO ACCOUNT 940.202, PRINTING & BINDING;
\$800.00 TO ACCOUNT 940.211, SERVICE TO MAINTAIN BUILDINGS;
\$250.00 TO ACCOUNT 940.212, SERVICE TO MAINTAIN IMPROVEMENTS OTHER THAN BUILDINGS;
\$75.00 TO ACCOUNT 940.215, SERVICE TO MAINTAIN AUTOMOTIVE EQUIPMENT;
\$200.00 TO ACCOUNT 940.231, ELECTRICITY;
\$50.00 TO ACCOUNT 940.233, TELEPHONE & TELEGRAPH;
\$200.00 TO ACCOUNT 940.245, POSTAGE;
\$400.00 TO ACCOUNT 940.515, OFFICE MACHINERY AND EQUIPMENT.

THE MOTION FOR THE TRANSFER OF FUNDS WAS APPROVED.

MR. OLSEN MOVED THAT THE LIBRARY PURCHASE DIRECTLY A RECONDITIONED MICRO-FILM READER PRINTER WHICH WE HAVE ON APPROVAL AT A COST OF \$500. MR. GROHNE REQUESTED THAT THE MOTION BE AMENDED TO ADD "PROVIDING IT IS LEGAL". THE MOTION AS AMENDED WAS APPROVED.

MR. OLSEN GAVE AN INFORMATIONAL REPORT ON THE SUMMARY OF INCOME AND EXPENDITURES THROUGH THE MONTH ENDING MARCH 31, 1967, ALONG WITH A STATEMENT OF BILLS TO BE APPROVED THROUGH APRIL 12, 1967. THE BOARD BY ROLL-CALL VOTE UNANIMOUSLY APPROVED THE REPORTS.

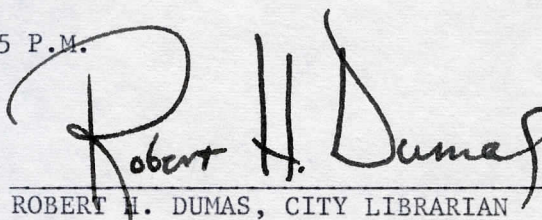

MR. OLSEN STATED THAT BILLS THROUGH THE LAST DAY OF THE MONTH OF APRIL SHOULD BE APPROVED BY THE BOARD. THEREFORE IT WAS MOVED THAT A SPECIAL MEETING OF THE BOARD BE CALLED FOR FRIDAY, APRIL 28, AT 4:30 P.M. IN THE LIBRARY BOARD ROOM. THE MOTION CARRIED.

MR. SAPPINGTON STATED THAT THE BOARD HAD DIRECTED HIM TO APPOINT A BUILDING COMMITTEE. HIS SELECTIONS FOR THE COMMITTEE ARE AS FOLLOWS: MR. SCHUERMAN, CHAIRMAN, MR. MILLER AND MR. GROHNE, MEMBERS.

IT WAS MOVED THAT THE ANNUAL MEETING REQUIRED BY THE BY-LAWS BE COMBINED WITH THE REGULAR MEETING OF THE BOARD TO BE HELD FRIDAY, MAY 12. THE MOTION WAS APPROVED.

MR. MILLER MOVED THAT CITY LIBRARIAN MR. DUMAS AND ONE DIRECTOR REPRESENT THE LIBRARY AT THE ILLINOIS STATE LIBRARY WORKSHOP ON LIBRARY BUILDINGS TO BE HELD MAY 25-26, 1967 IN ROSEMONT, ILLINOIS, AND THAT THEY BE REIMBURSED THE EXPENSES OF THE TRIP. THE MOTION WAS APPROVED.

THE MEETING WAS ADJOURNED AT 5:45 P.M.

ROBERT H. DUMAS, CITY LIBRARIAN

FOR SECRETARY OF THE BOARD

A REPORT ON THE PLAN FOR A CULTURAL CENTER
AND THE SELECTION OF A SITE FOR THE PROPOSED CENTRAL LIBRARY

As the chief administrator of the library and technical advisor to the Board I am charged with the responsibility of representing the best interests of the library and the people who use it, just as Mr. Reid and Mr. Bullamore are charged with representing interests of the Community. Planning Department. Each of us of course concerned with long range and best interests of the people of Decatur, but from a different angle of vision. My field of expertise is library management and although there are questions of political and economic feasibility involved in the plan for a cultural center, which questions, if raised, could possibly have unhappy consequences for the library if it should become associated with the proposed building complex, I do not propose to discuss them beyond acknowledging their existence.

Criteria of Site Selection

Among the various elements to be considered in the selection of a public library location are high pedestrian traffic, centrality with respect to city-wide travel pattern, accessibility by public transportation, availability of convenient parking facilities, existence of general modes of activity during all hours of library service including evening hours. Of these the most important by far is the presence of high pedestrian traffic - and, indeed, many of the other desiderata occur as a natural cause or consequence of this factor. The locus of peak pedestrian traffic in Decatur is the corner of Water and E. William Streets, and - as with any business - the closer the library can be to this intersection the better. Each block away from this intersection means fewer books circulated and less service given each year. At the same time, costs and overhead (lights, supplies, book needs, staff size) will tend to remain fixed with the result of higher costs per unit of service. This inefficiency extended over the term of the building's life would run to tens of thousands of dollars. This is not only my position. It is the general position taken by Joseph L Wheeler, the world's foremost authority on site selection for public libraries, who says that

The only location that meets the requirements listed above that is currently available or that might become available at a cost that is feasible is the site of the present central library. It is the site recommended by Ulveling and Mohrhardt of the Detroit Public Library, a nationally known and highly respected consulting team. It is the recommendation of Dr. Goldhor of the University of Illinois library school. It has been the recommendation of every disinterested community planner and consultant that has considered the question.

Recommendations of the Community Planning Department, with an Analysis.

In its "Civic and Cultural Center: Preliminary Research" the Department of Community Planning lists as its criteria for the location of the public library the following: accessibility, removal from traffic and noise, and attractiveness of location. Parking considerations are also emphasized. On the basis of these criteria, four possible sites are suggested, two of which are greatly removed from the downtown area. These recommendations are at such a variance with the recommendations of the present city librarian as well as the many outside consultants called in for advice over the past years that one may justifiably ask why. Part of the answer lies, I think, in differing conceptions of the purpose of the library. Hints of this basic difference can be seen in various places in the research report. For example, the library is seen (p. 47) as a place for small children to be left while mother is shopping. While they would unanimously agree that there are few places better for children to come to than the library, most librarians and trustees would not agree that the library is an agency where children are deposited for child care. These are good practical reasons for not desiring this responsibility: namely, the short attention span of children which limits their use of library materials, and the high cost of using library staff as baby sitters. I will not mention increased difficulties in recruiting good people if they were to be assigned work of this nature.

The report suggests (p. 47) that the library provide historical displays. The

55
KHD

library presently does have such a collection. But historical artifacts and mementos do not belong in a library; they belong in a museum. Libraries and museums have different, if frequently complementary functions, and the two institutions should not be confused. There has been established an historical museum in the Macon County Court-house. It is desirable that the library not compete with this museum: it has not the proper facilities nor the specialized staff to perform a museum function, not to mention the fact that such competition would tend to disperse the corpus of materials to the detriment of the people of Decatur and Macon County generally. Part of the answer to the question of divergent recommendations lies, too, in the necessity to accommodate the locational requirements of the library to the site requirements of a complex of buildings serving a variety of purposes, so that the ideal site characteristics for each type of facility had to be subordinated to the practical requirements of keeping the proposed buildings together. This accommodation to an a priori decision in favor of a cultural center and its architectural assumptions is recognized briefly on Page 51 of the report which remarks the difference in requirements in three respects.

Site Requirements in the Cultural Center Report

A word should be said regarding the planning department's criteria for locating the library. In the report considerable emphasis is laid on the need for automobile parking facilities for the library. That this is not and should not be a primary consideration is shown from the studies of Wheeler who, in his papers "The Effective Location of Public Library Buildings" (Urbana, 1958) and "1967 Reconsideration of Strategic Location for Public Library Buildings" (Urbana, 1967) cites numerous examples of successful libraries without parking facilities as well as of unsuccessful library operations with ample parking. He concludes that the successful libraries are successful because of their location in prime areas in the mainstream of the downtown foot traffic while the unsuccessful libraries are removed from this pedestrianism.

JG
K/12

And yet parking in a convenient if not contiguous location is important. For this reason no one interested in the proper location of libraries can read the words of a leading city planner such as Victor Gruen and fail to be disturbed at the prospect of the inclusion of the public library in a civic and cultural center. Gruen calls civic centers "concentration camps for bureaucrats", the results of "segregators" who also "build cultural centers...where theaters, concert halls, and other institutions for the performing arts are confined to one particular spot, which necessarily will be dead and empty all day long, but upset by monumental traffic jams when the performances begin or end." (Gruen. The Heart of Our Cities, N.Y., 1964. pp. 106-107)

The lack of daytime traffic is a terrible spectre to confront a public library. Of course there would be times, and frequently, if hopes for convention and major arena attractions are realized, when there would be massive traffic in the cultural center area. But these throngs would be orientated to a specific activity, on a strict time schedule, and would be composed of large numbers of out-of-town residents. The effect of these crowds on parking facilities available to library patrons would be strongly adverse and perhaps catastrophic. With parking spaces pre-empted by crowds now closeted in a music hall or arena, with streets in the area deserted because of the lack of general modes of activity many people will decide against an evening trip to the library or permitting their teen-aged children to go.

A high noise level is cited as a reason for removing the library from its present location, and the avoidance of noise is listed as a desiderata of the proposed sites. In these times when acoustical engineering has reached a high point of development, the comparative noise levels within the ranges of the present and proposed sites hardly seems significant. Indeed the present building ^{is} far from acoustically ideal, but complaints about noise are more likely to be directed at sources within the building resulting from the business being carried on, than at sources without the building resulting from extraneous causes such as traffic.

52
RHP

Other Considerations Affecting Site Selection

Although not specified in the report, the location of the Montgomery Ward Store and the new Sears, Roebuck building may be advanced as circumstances which will profoundly alter the stream of pedestrian traffic. Without denying that some effect will be felt from these new retail outlets, I am concerned lest they be overemphasized. Certainly the Wards Store has not significantly altered the traffic flow. The now abandoned plan of Sears, Roebuck to build its store in an outlying area indicates a belief on the part of its management that its patronage is not dependent upon downtown traffic. Two major reasons may be assigned for this: (1) a substantial part of the patronage of these two stores is drawn from a large area beyond Decatur who must perforce travel by automobile to reach the stores; (2) these two giant stores are characterized by a national image which draws customers directly to their doors, and it can be said that random shopping does not account for the bulk of their trade. That this is so can be clearly seen by visiting the parking lot of the Montgomery Ward store: Customers drive - not walk - to the store, enter and shop, exit, get into their automobiles and drive away. Few customers arrive on foot from the retail district to the north. This view is substantiated by a visit to the store on a Sunday when the rest of the retail district is closed: large numbers of cars in the parking lot testify that this is one of Ward's busier days and that the store is doing a substantial business. It cannot be expected therefore that the location of these two stores will radically change the foot traffic pattern in downtown Decatur.

More Recent Developments

On March 28, the Library Board met with members of the City Planning Commission and members of the Planning Staff to discuss the general plan set forth in the research report as it pertains to libraries. During the discussion it was brought out that a great deal of flexibility in the original proposals can be expected. Of major importance to the library is the decision to modify planning for the cultural facilities from a compact center to an open-grained, dispersed plan for the facilities,

58
1942

so that each would be placed in a location of maximum advantage. Mr. Bullamore also remarked that the principle complementarity of the library with the other facilities was one of shared parking. Since the parking facilities program is already well under way and there is no reason to believe that substantial changes in the program will be made, it is fair to assume that there will be ample parking convenient to any point within the core business district. If we accept the principle of dispersed cultural facilities and the restricted complementarity of the library to the other proposed facilities, then it is apparent that the location of a new library can proceed upon its own merits.

Recommendations on Central Library Location.

There are but two sites under consideration that meet the requirements listed above under the heading "Criteria of Site Selection". The first of these is the present location; the second is one of the sites recommended by the Community Planning Department. Of these two locations, the first represents the greatest number of known factors in virtue of its history. And yet its future potential is not completely known; Community Planning Department believes the center of the core is moving south and east (their studies of foot traffic indicate a half-block shift to the south at the present time) and a major highway couple is projected for the future using Eldorado and North Streets as its legs, creating a traffic island of the present site.

On the other hand the block bounded by Water, E. Main, S. Main, and E. Wood meets the criteria in a number of important ways - provided the library occupies the northern section of the block: the corner of Water and E. Main is closer to Water and E. Main is closer to Water and E. William (and to the new locus of peak pedestrian traffic in the area of Central Park on Water) than is the present location of the library; and there is considerably more foot traffic on this corner than there is on the corner of N. Main and Eldorado. If present plans for a mall on Water Street are realized, there will be even greater foot traffic and the library could front ^{and on to} ~~the~~ the mall. The dispersal of the other elements in the cultural facilities plan throughout the downtown area would eliminate the likelihood of periodical congestion as well as prevent

59
RKH

the library from being located in a ghetto-like pocket. Given these conditions, the potential of the Water/E. Main location may be even greater than the present location. But it needs to be remembered that the purchase of this site may raise the cost of a new library building beyond a feasible point. The cost of the whole block is estimated by the Community Planning Department at \$1,227,000 plus \$200,000 in demolition costs. The library would occupy approximately two-thirds of this site. The site costs for the library would thus be on the order of \$1,000,000. The building would cost slightly more than \$1,500,000. How the tax payers would react to a bond program of two-and-a-half million dollars as opposed to a program of less than two millions of dollars is the principle factor which the Board of Library Directors must evaluate in making a decision as to site.
