GAS

COOKING with gas at \$1.00 per thousand, the price in Decatur, is the cheapest, safest and most convenient fuel to be obtained.

We sell stoves at cost, and make all connections FREE. They give better results and last longer than any other kind of stove.

GAS HEATERS are convenient and economical for bathroom, bedrooms, or any other part of the house where you want heat quickly, and for a short time. They are especially adapted to take the chill off of a room the cool mornings and evenings during the spring and fall, when you do not want a big furnace fire.

MANY CONVENIENCES can be secured with Gas Appliances. We have a number of different devices for heating water for the bath or general household use.

The Jewel Water Still will give you an ample supply of absolutely pure distilled water at an expense of about one cent per gallon.

With a Gas Mangle, you can iron all plain pieces as fast as you can run them through the rolls.

SMALL DEVICES, such as nursery burners, boiling stoves, curling-iron heaters, iron heaters, etc., etc., add much comfort to the home and only a very little expense.

GAS ENGINES are a convenient and cheap method of obtaining power. There are quite a number now in operation in Decatur, giving perfect satisfaction.

LIGHTING with gas is not only convenient and cheap, but with modern burners for reading and work, it saves the eyes and is especially adapted for use in the home.

WE FURNISH all gas appliances at cost.

ELECTRIC

LIGHTING is especially adapted for stores or large rooms, and with our well equipped plant, we give the best of service, and can furnish any kind of arc or incandescent light that is desired. We are always pleased to advise as to what lights are best adapted to the different conditions. For residence lighting, it is convenient, cheerful and safe.

POWER. There is no more convenient, reliable, economical or safe method of obtaining power. As most of the service is required during the day when our load is not heavy, we will make especially low rates for this kind of service. It will pay you to see us before adopting any other.

It is our aim to give our customers good, efficient service, courteous treatment and respond promptly to all calls where either the gas or electric service requires attention.
