Mathematics

The Mathematics Department has the unique responsibility of teaching students a tool subject—a subject used in business, industry, engineering, science, and almost any field of twentieth century endeavor.

At Eisenhower we teach general mathematics for those who wish to gain more skills with arithmetic computations and applications to everyday life. We teach the college preparatory mathematics for those who wish to attend college or apply mathematics as a technician. These subjects consist of Algebra 1 and 2, Geometry 1 and 2, College Preparatory Mathematics 5 and 6, and College Preparatory Mathematics 7 and 8.

Science

Our science department offers a variety of courses in biological and the physical sciences. We aim to teach students to observe, to use scientific equipment and the scientific method in solving problems. This and basic knowledge should enable the student to better understand himself, to interpret current scientific literature, or to continue studying in the field of science.
