Dear Sir,

Recently I have learned that the Public Library Director gave the board its options concerning the amount of money it is projected to have and the possible places to spend that money. As a 7<sup>th</sup> grade student at Thomas Jefferson Middle School, I urge you to consider opening the library on Sundays. I realize that money is short, but Sunday hours would benefit myself and many other students.

Is there anyway that students such as myself can encourage this decision

Thank you,
