# ACTIVITIES

Remember How We Laughed Away  
the Hours, and Dreamed of All  
the Great Things We Would Do.

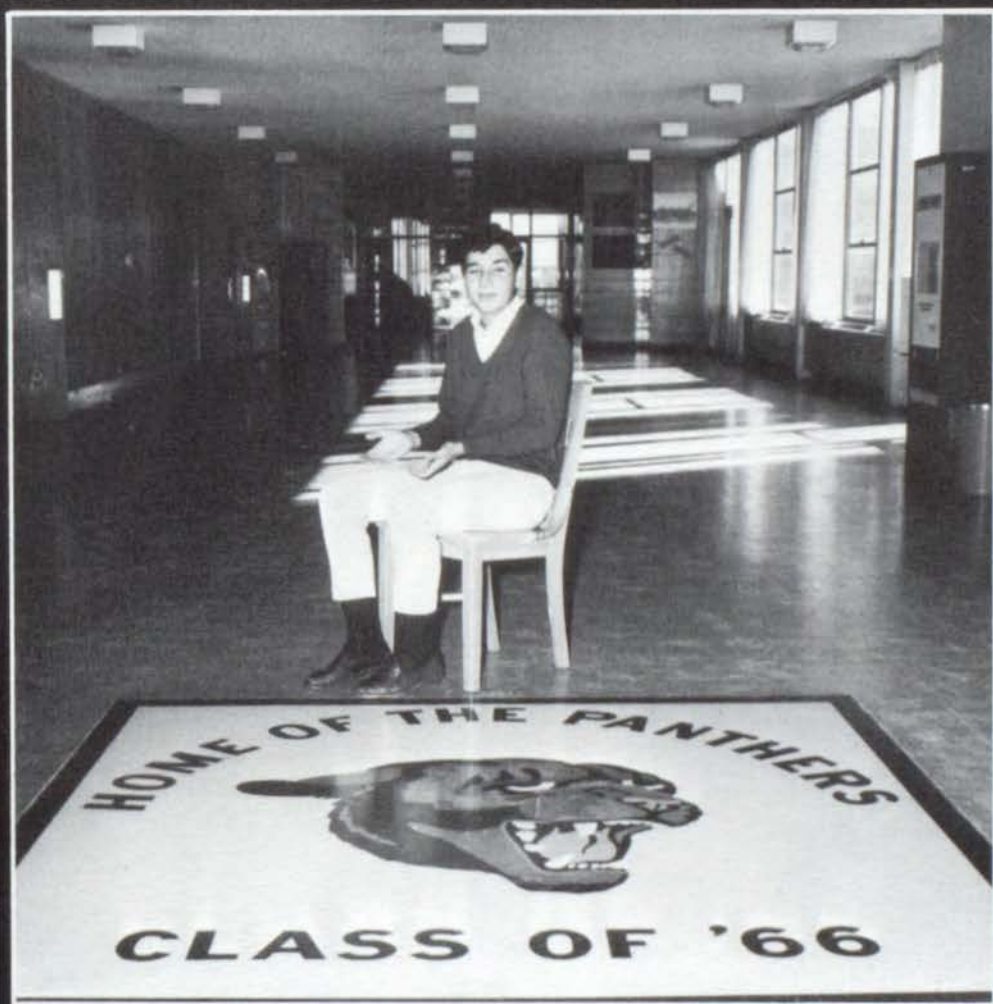

# Eddie

Edyardo Vazquez, (far left top row) more commonly known as Eddie, is our American Field Service student from Buenos Aires, Argentina. He is making his home with John Atkins and his family.

Eddie's plans are to enter a career of medicine, but politics runs a close second. Among his hobbies are tennis, swimming, collecting stamps, and horseback riding. One of his difficulties at EHS is having to run from one class room to another.

# Santiago

Santiago Verale, our boy from Montevideo, Uruguay, is staying with John Peterson and his family.

Santiago's plans for the future are to become a doctor. His hobbies are stamp collecting, photography, soccer, swimming, and golf.

Santiago has had a little trouble getting acquainted in school without having a brother to present him to his friends. He also has trouble finding his classes and understanding chemistry.

## Student

## Council

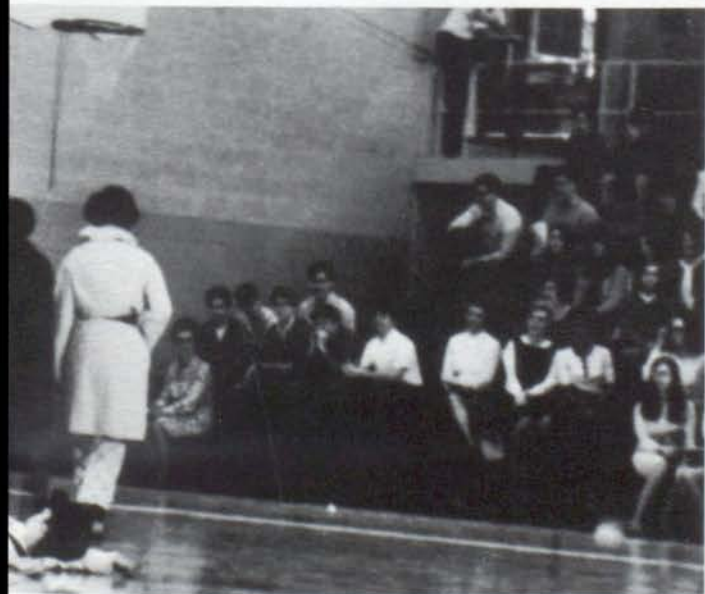

On February 13, the student body gathered in the gym to hear the speeches of the people running for a Student Council office. Nine juniors were vying for the offices. When the election returns were in the results were as follows: President, Bill Rhoades; Vice President, Bob Zeni; Secretary, Susan Haynes; and Treasurer, Philip Bateman. These officers will serve the remainder of the '68 year and the first of the '69 year.

Drawing, painting, lettering, designing, and ceramics are a few of the many areas in art which students may express their talents. Among other things the commercial art class designs the cover of the Student Directory and Panther Press posters. Students are able to sell their work.

Miss Woodring, with the help of Miss Herdes, works to make the library a better one for the students of Eisenhower by increasing the educational resources open to the students. The librarians also help the faculty members by providing guidance and materials for class groups and independent study groups.

The goals for the teaching of foreign language are to help the student increase his English vocabulary, to help him improve his spelling through the understanding of prefixes and suffixes, and to give him a foundation for the study of a spoken language.

The goals for the teaching of foreign language are to teach the student to communicate in the language and to understand the culture of the people who speak the language.

For newcomers to Eisenhower, home economics has probably taken on the newest face of any program offered.

Our old aim of preparing girls for careers as a homemaker has been expanded to include a dual role of employment preparation. Boys, as well as girls, are taking advantage of the new courses in our department. We are now offering courses in food service, health service, management, pre-nursing, and practical nursing as well as regular courses in foods, clothing, and family living.

The primary purpose of guidance is individual counseling. The counselors at Eisenhower serve the students in helping them with their educational and vocational plans and their social problems. During the four years of high school it is hoped that a close relationship develops between the students and their counselors.

Some of the many activities that take place in the girls physical education classes are soccer, volleyball, gymnastics, and creative dance. They create opportunities to exercise such desirable traits as leadership, sportsmanship and cooperation.

The girls, like the boys, spend three weeks in health classes per semester. They are taught about community health services, first-aid, and safety education.

Each year a business manager is chosen who has the responsibility of leading the staff. Accompanying Mr. Gambetta at this task is this years business manager Bob Zeni. Without Bob's enthusiasm for yearbook work, Pantherama could not be the success it is.
