Dear J,

Thanks for bringing your display to the 1994 CCS & Richland Community College Environmental Fair. We appreciate your commitment to educating Macon County! And even more than that we appreciate all of your physical labor and emotional support during planning, set up and break down of the fair!!!

Attendance more than doubled from our first fair. Most people came early and stayed for the entire program. We saw families, teens, little kids and even babies having lots of fun while they learned about our local environmental and conservation issues.

Please plan to join us again in 1995 in late February. We will contact you by August with the new theme.

Sincerely,

Ruth Stauffer
Executive Director

Donna Johnson
Education Committee Chair
