

MEMORANDUM

August 11, 1994

MEMO TO: Library Board of Trustees

FROM: John A. Moorman

SUBJECT: Security Equipment

At the Finance Committee meeting on August 2, a question was brought up about how one monitor could be used with two cameras. I called ADT and found that the monitor included in their quote flashed back and forth between the two cameras. I requested and received a quote for a "quad splitter" monitor that splits the screen in quarters. This would allow complete monitoring from both cameras at the same time. The revised quote for \$2,400 also includes 10 tapes which are reusable.
